Account will be charged for renewal within 24-hours prior to the end of the current period. Payment will be charged to iTunes Account at confirmation of purchase. Subscriptions can be managed, and auto-renewal can be turned off in Account Settings in iTunes after the purchase. Any unused portion of a free trial period, if offered, will be forfeited when the user purchases a subscription to that publication, where applicable. - Terms of Use: Privacy Policy: Jul 28, 2022 Version 2.2.1 Bug fixes and performance improvements! I expected to pay and immediately be disappointed by some mediocre work but it does actually work well at turning you into a cartoon character. It produces thick outlines and makes you look like you are from archer. It was nice to see this application able to cartoonize any background objects as well because currently it just finds and crops your face then removes the background. Was flipping thru TikTok and saw an ad for your app that showed where you could point your camera at people and see what they would look like as Disney characters. That's the only reason we tried out the app. Well we never located that feature-talk about disappointment. Now we can't figure out how to disconnect from this app and not get charged for its use. I mean we have only had access of it for less than an hour. I suppose the other parts of the app are ok but not what we came for. Now if we can just get out of here with our money! Dear ishy4real, you can find the filter in 3d cartoon tab. Please let us know, if you have any other feedback support@lyrebirdstudio.net I didn't want a free trial, just wanted to try the basic free version or exit the app if a free version wasn't available. I didn't know that toggling off the "free trial" would immediately charge me \$4.99 per week. There wasn't a confirmation of impending charges, it just charged me immediately. Declining the free trial apparently gives them the power to charge my account. **SUPER SHADY!!** And for what? 3 different cartoon styles and a few extremely basic backgrounds? It's not worth \$.05 per week let alone nearly \$5 per week. They're either delusional thinking the app is worth that or the app is a complete scam. **BEWARE!** The developer, Lyrebird Studio, indicated that the app's privacy practices may include handling of data as described below.
